Summary

I have been developing myself in the field of Frontend Developer for 3 years now and I have experience with many technologies, I am improving myself in this field. Currently, I am working in the field of Frontend Development. I am experienced in developing powerful websites that meet client goals. Able to identify needs, create plans, and work with clients to optimize design usability and performance. I can work effectively without supervision and learn new skills quickly. I develop web pages that are responsive to all devices in a form according to the wishes of the clients. I have a great passion for programming and am constantly improving my knowledge in this field.
