PROFİLE

Frontend Developer with 3+ years of commercial experience building high-performance, SEO-optimized, and fully responsive web applications. Proficient in Next.js, React.js, Vue.js, and Angular on the frontend, with additional backend exposure through PHP / Laravel and REST API integration. Committed to clean code, performance optimization, and delivering polished user experiences across all devices and browsers.

Leverages AI-powered tools (Claude, GitHub Copilot, Cursor) to accelerate development cycles, enforce clean code standards, and make informed architecture decisions — maintaining full ownership of code quality and output.

WORK EXPERİENCE

Frontend Developer · **Safaroff Agency** *Oct 2025 – Present*

- Design and develop pixel-perfect, accessible UIs based on Figma / Adobe XD prototypes.
- Build reusable component libraries in React.js and Vue.js, reducing development time across projects.
- Collaborate with backend engineers to integrate RESTful APIs and ensure seamless data flow.
- Enforce cross-browser compatibility and achieve Lighthouse performance scores of 90+.
- Write unit and integration tests; identify and resolve bugs in both new and legacy code.
- Apply AI-assisted workflows to scaffold project architectures, automate repetitive tasks, and conduct systematic code reviews — reducing delivery time without compromising quality.

Frontend Developer · **Proton MMC** *Oct 2022 – Jun 2024*

- Delivered full-stack web projects using Laravel (backend) and Next.js (frontend) with SSR / SSG / ISR.
- Built internal admin panels for CMS and user-management workflows.
- Integrated REST APIs and managed smooth data exchange between frontend and backend layers.
- Optimized page load times, reducing average LCP by ~35% through code-splitting and image optimization.

PROJECTS

Safaroff Agency Portfolio — safaroff.com · *Commercial*

Corporate portfolio website showcasing company profile and client projects. Integrated an AI-powered chatbot supporting both text and voice communication with users. Built using Laravel component-based architecture.

Stack: *PHP / Laravel, HTML, SCSS, JavaScript, AI Chatbot Integration*

PDP — Personal Data Protection Azerbaijan · *Government · Confidential*

Large-scale government corporate website featuring multi-step forms and interactive quizzes for data protection compliance. Integrated MyGov authentication system for secure citizen login. Built with Laravel component-based architecture.

Stack: *PHP / Laravel, HTML, SCSS, JavaScript, MyGov Integration*

Ekspertiza Mərkəzi — Internal CRM System · *Government · Confidential*

Full-featured internal CRM platform serving both citizens and government financial staff. Citizens log in via MyGov to view personal data, submit applications, track payments, and digitally sign contracts. Government employees manage incoming requests through a dedicated admin panel. Developed in close collaboration with a backend developer.

Stack: *Next.js, TypeScript, Tailwind CSS, Laravel REST API, MyGov Integration*

LiveMentors — livementors.org · *Charity — Full-Stack Solo*

Multilingual corporate website for a charitable conference platform by Dayaq Xeyriyyə foundation. Developed entirely as a full-stack solo project — public website, admin panel, and REST API all built and integrated independently. Supports three languages (AZ / EN / RU) with custom i18n routing.

Stack: *Next.js, TypeScript, Laravel, REST API, i18n*

Sobsan Boya — sobsan-nextjs.vercel.app · *Personal Project*

A Next.js-based e-commerce website for a paint and coatings brand. Features include a product catalogue with cart, wishlist, and product comparison functionality. Supports three languages (AZ / EN / RU) with custom i18n routing and includes dark / light mode.

Stack: *Next.js, TypeScript, Tailwind CSS, i18n*
