ALIPASHA ASKEROV

Software Engineer

Full-Stack Development • AI Integration • Next.js • Laravel • React Native

Portfolio | Github | LinkedIn

askerovpasha21@gmail.com | +994 (055) 322 0718

PROFILE

Software Engineer focused on building scalable, maintainable, and high-quality software systems. Experienced in full-stack web and mobile development using Next.js, React Native, Laravel, Node.js, and TypeScript, with hands-on experience integrating AI-powered features into production applications.

Strong believer in clean architecture, reusable systems, and thoughtful engineering, with experience delivering products from system design and implementation to deployment.

SKILLS

Programming Languages: TypeScript, JavaScript (ES6+), PHP, HTML5, CSS3, SCSS, SQL

Frontend: React.js, Next.js, React Native, Vue.js, Angular, Tailwind CSS, Bootstrap, Styled Components

Backend: Laravel, Node.js, Express.js, REST API, MySQL

State Management & Data Fetching: Redux Toolkit, Zustand, Axios, TanStack Query

AI & Automation: LLM Integration, Claude AI, Ollama, AI Chat Systems, AI Knowledge Base Preparation, Prompt Engineering

Architecture & Engineering: Component-Based Architecture, Frontend Architecture, Responsive Design, Performance Optimization, API Integration, Authentication, SEO

Tools & DevOps: Git, GitHub, Postman, Cloudflare, cPanel, CI/CD, Vercel, Figma, Adobe XD

Testing: Jest, Manual Testing

Methodologies: Agile, Scrum, Cross-functional Collaboration, Code Review

Languages: Azerbaijani (Native), English (B1)

WORK EXPERIENCE

Software Engineer · Azerbaijan University of Languages — *May 2026 – Present*

Center of Artificial Intelligence

- Develop AI-powered web and mobile applications using React Native, Next.js, TypeScript, Node.js, and Express, building the university's AI assistant with authentication, AI chat, document upload, and REST API integration.
- Designed the application's frontend architecture, including reusable components, routing, state management, and scalable project structure.
- Prepared AI-ready knowledge bases by transforming university documents into structured datasets for retrieval-based AI systems and collaborated on AI model integration.

Frontend Developer · Safaroff Agency — *October 2025 – May 2026*

- Developed modern, responsive web applications using React, Next.js, Vue.js, Angular, and TypeScript for enterprise and government clients.
- Collaborated with cross-functional Agile teams to analyze requirements, implement pixel-perfect interfaces, integrate REST APIs and WebSocket-based AI features, and deliver production-ready solutions.
- Built reusable frontend architectures, complex multi-step forms, and scalable state management with a strong focus on performance, maintainability, and code quality.

Full-Stack Developer · Proton MMC — *October 2022 – June 2024*

- Started as a Frontend Developer Intern and progressed to a Full-Stack Developer by independently delivering Laravel-based CMS applications.
- Built dynamic multilingual platforms with authentication, admin panels, CRUD operations, SEO management, REST API integration, and reusable frontend architectures using Laravel and Next.js.
- Managed deployments with cPanel, Cloudflare, CI/CD, and domain configuration while mentoring frontend interns and contributing to production releases.

PROJECTS

AUL AI Advisor | *Academic*

React Native • TypeScript • Node.js • Express • Ollama • REST API

AI-powered mobile application developed for Azerbaijan University of Languages. Built the complete mobile application, including authentication, AI chat, document upload, and API integration. Designed the application architecture and transformed university documents into structured AI-ready knowledge bases to improve response quality and document understanding.

Safaroff Agency Portfolio | *Commercial*

Laravel • HTML • SCSS • JavaScript • WebSocket

Corporate website for Safaroff Agency featuring a modern interactive user experience. Implemented the complete frontend, integrated a real-time AI chatbot via WebSocket, and developed voice chat interfaces for AI-assisted communication.

Personal Data Protection (PDP) | *Government*

Laravel • JavaScript • SCSS

Large-scale government platform consisting of 50+ responsive pages, advanced multi-step forms, quizzes, and complex state management. Designed a reusable component architecture within Laravel to minimize code duplication while ensuring scalability and maintainability.

Ekspertiza CRM System | *Government*

Next.js • TypeScript • Tailwind CSS • Laravel REST API • MyGov

Enterprise CRM platform serving both citizens and government employees. Developed the complete frontend architecture, integrated approximately 100–200 REST APIs, implemented MyGov authentication, and built workflow-driven interfaces supporting multi-level approval processes.

LiveMentors | *Full-Stack Solo Project*

Next.js • TypeScript • Laravel • MySQL

Multilingual charity platform fully designed and developed as a solo full-stack project. Implemented the frontend, backend, CMS, REST APIs, multilingual infrastructure (AZ/EN/RU), and SEO management within a single maintainable architecture.

EDUCATION

Master's Degree – Automation of Technological Processes & Production 2022 – 2024
Azerbaijan State Oil and Industry University

Bachelor's Degree – Process Automation Engineering 2018 – 2022
Azerbaijan State Oil and Industry University
